Subject index*

A

Abstracts

Abstracts. 1989;17:94-118

Acquired immunodeficiency syndrome

Anti-HIV antibody testing: procedures and precautions (Gauthier and Turner). 1989;17:213-25

Follow-up and education of employees exposed to a patient with HIV antibodies and massive bleeding (Gerner et al). 1989;17:349-52 (Brief report)

Human immunodeficiency virus testing in health care: Part 1 (Valenti). 1989;17:226-9 (AIDS: problem solving in infection control)

Management of HIV infection in the hospital (American Hospital Association Technical Panel on Infections within Hospitals). 1989;17(4):24A-44A

Prevention of human immunodeficiency virus infection: our responsibilities as health care professionals (Pugliese and Lampinen). 1989;17:1-22

Role of the hospital AIDS coordinator (Geshan and Beckwith). 1989;17:268-70 (AIDS: problem solving in infection control)

Threat of AIDS: relationship between knowledge and attitudes (Selig et al). 1989;17:43-4 (Letter)

Universal precautions: Part 2 (Valenti). 1989;17:39-41 (AIDS: problem solving in infection control)

Aerosols

Outbreak of nosocomial *Flavobacterium meningosepticum* respiratory infections associated with use of aerosolized polymyxin B (Brown et al). 1989;17:121-5

Agenda for Change

The infection control community's response to the Agenda for Change (Larson). 1989;17:241-3 (Guest editorial)

American Hospital Association

Management of HIV infection in the hospital (American Hospital Association Technical Panel on Infections within Hospitals). 1989;17(4):24A-44A

Aminoglycosides

Antimicrobial agents: the old and the new (Neu). 1989;17:276-85 (Symposium)

Antibiotics

Antimicrobial agents: the old and the new (Neu). 1989;17:276-85 (Symposium)

Antimicrobial monitoring and evaluation (Eckert). 1989;17:295-9 (Symposium)

Antimicrobial therapy in special situations, including extended care facilities and the outpatient setting (Smith). 1989;17:316-22 (Symposium)

Antimicrobial use in hospital-acquired infections (Ryan). 1989;17:311-5 (Symposium)

Antimicrobials in the 1990s: introductory remarks (Klimek). 1989;17:275 (Symposium)

Containing costs of antimicrobials in the hospital: a critical evaluation (Ehrenkranz). 1989;17:300-10 (Symposium)

Epidemiology and mechanisms of antimicrobial resistance (Parry). 1989;17:286-94 (Symposium)

Antibodies, viral

Anti-HIV antibody testing: procedures and precautions (Gauthier and Turner). 1989;17:213-25

Antimicrobial resistance; see Drug resistance, microbial

Antimicrobials; see Antibiotics

Antiseptics

Daily change of an antiseptic dressing does not prevent infusion phlebitis: a controlled trial (Leibovici). 1989;17:23-5

Association for Practitioners in Infection Control

APIC and the 1985 position paper: "listen to the music" (Counts). 1989;17:49-55 (Guest editorial)

APIC Position Paper 1985. 1989;17:66-8

B

Bacteremia; see Septicemia

Bacteria

Bacterial carriage of artificial versus natural nails (Pottinger et al). 1989;17:340-4

Bacterial surface contamination of patients' linen: isolation precautions versus standard care (Weinstein et al). 1989;17:264-7 (Brief report)

Influence of two handwashing frequencies on reduction in colonizing flora with three handwashing products used by health care personnel (Larson et al). 1989;17:83-8

Bacteriological techniques

Use of cellular hydrophobicity, slime production, and species identification markers for the clinical significance of coagulase-negative staphylococcal isolates (Martin et al). 1989;17:130-5

Bandages

Daily change of an antiseptic dressing does not prevent infusion phlebitis: a controlled trial (Leibovici). 1989;17:23-5

Bedding and linens

Bacterial surface contamination of patients' linen: isolation precautions versus standard care (Weinstein et al). 1989;17:264-7 (Brief report)

Bleeding; see Hemorrhage

Blood

Blood exposure and protection in funeral homes (McDonald). 1989;17:193-5 (Guest editorial)

Exposure to and precautions for blood and body fluids among workers in the funeral home franchises of Fort Worth, Texas (Nwanyanwu et al). 1989;17:208-12

Permeability of latex and vinyl gloves to water and blood (DeGroot-Kosolcharoen and Jones). 1989;17:196-201

Blood donors

Management of HIV infection in the hospital (American

*February, pp. 1-48; April, pp. 49-118; June, pp. 119-192; August, pp. 193-230; October, pp. 231-322; December, pp. 323-376.

Hospital Association Technical Panel on Infections within Hospitals). 1989;17(4):24A-44A

Body fluids

Exposure to and precautions for blood and body fluids among workers in the funeral home franchises of Fort Worth, Texas (Nwanyanwu et al). 1989;17:208-12

Brief reports

Brief reports. 1989;17:148-53, 264-7

C

Catheterization

Sporadic bacteremia complicating central venous catheter use in a community hospital: a model to predict frequency and aid in decision-making for initiation of investigation (Ehrenkranz et al). 1989;17:69-76

Cellular hydrophobicity; see Bacteriological techniques

Centers for Disease Control

CDC definitions for nosocomial infections (Yangco) (Letter); (Garner et al) (Reply). 1989;17:42-3

Cephalosporins

Antimicrobial agents: the old and the new (Neu). 1989;17:276-85 (Symposium)

Certification

Revisions and commonly asked questions regarding the Infection Control Certification Examination (Jacobson). 1989;17:89-92 (Practice forum)

Coagulase, diagnostic use

Use of cellular hydrophobicity, slime production, and species identification markers for the clinical significance of coagulase-negative staphylococcal isolates (Martin et al). 1989;17:130-5

Commentary

Commentary. 1989;17:154-8

Communicable disease control

Survey of patients' knowledge of nosocomial infections (Miller and Farr). 1989;17:31-4

Cost control

Containing costs of antimicrobials in the hospital: a critical evaluation (Ehrenkranz). 1989;17:300-10 (Symposium)

Coxiella

Q fever in animal laboratory workers: an outbreak and its investigation (Graham et al). 1989;17:345-8 (Brief report)

Cross infection

Antimicrobial use in hospital-acquired infections (Ryan). 1989;17:311-5 (Symposium)

Bacterial surface contamination of patients' linen: isolation precautions versus standard care (Weinstein et al). 1989;17:264-7 (Brief report)

CDC definitions for nosocomial infections (Yangco) (Letter); (Garner et al) (Reply). 1989;17:42-3

Hospital stay and mortality attributed to nosocomial enterococcal bacteremia: a controlled study (Landry et al). 1989;17:323-9

Outbreak of nosocomial *Flavobacterium meningosepticum* respiratory infections associated with use of aerosolized polymyxin B (Brown et al). 1989;17:121-5

Survey of patients' knowledge of nosocomial infections (Miller and Farr). 1989;17:31-4

Cross infection, child

Diagnostic studies of nosocomial diarrhea in children: assessing their use and value (Brady et al). 1989;17:77-82

Nosocomial infection in neonatal intensive care units (Donowitz). 1989;17:250-7

D

Data systems; see Information systems

Decision making

Sporadic bacteremia complicating central venous catheter use in a community hospital: a model to predict frequency and aid in decision-making for initiation of investigation (Ehrenkranz et al). 1989;17:69-76

Diarrhea, child

Diagnostic studies of nosocomial diarrhea in children: assessing their use and value (Brady et al). 1989;17:77-82

Disease susceptibility

Susceptibility of hospital-based health care personnel to varicella-zoster virus infections (McKinney et al). 1989;17:26-30

Disinfectants

Influence of two handwashing frequencies on reduction in colonizing flora with three handwashing products used by health care personnel (Larson et al). 1989;17:83-8

Dressings; see Bandages

Drug resistance, microbial

Epidemiology and mechanisms of antimicrobial resistance (Parry). 1989;17:286-94 (Symposium)

E

Editorials

Guest editorials. 1989;17:49-68, 119-20, 193-5, 231-43

Education

Follow-up and education of employees exposed to a patient with HIV antibodies and massive bleeding (Gerner et al). 1989;17:349-52 (Brief report)

Handwashing practices in an intensive care unit: the effects of an educational program and its relationship to infection rates (Conly et al). 1989;17:330-9

Enterobacteriaceae

Hospital stay and mortality attributed to nosocomial enterococcal bacteremia: a controlled study (Landry et al). 1989;17:323-9

Enterococcus; see Streptococcus

Equipment contamination

Evaluation of the insulin jet injector as a potential source of infection (Price et al). 1989;17:258-63

Extended care facilities; see Skilled nursing facilities

F

Fever

Q fever in animal laboratory workers: an outbreak and its investigation (Graham et al). 1989;17:345-8 (Brief report)

Fingernails; see Nails

Flavobacterium

Outbreak of nosocomial *Flavobacterium meningosepticum* respiratory infections associated with use of

Flavobacterium—cont'd

- aerosolized polymyxin B (Brown et al). 1989;17:121-5

Flora; see Bacteria**Fluoroquinolones**

- Antimicrobial agents: the old and the new (Neu). 1989;17:276-85 (Symposium)

Food contamination

- Food-borne disease in hospitals: prevention in a changing food service environment (Gellert et al). 1989;17:136-40

- Investigation of a food-borne outbreak of salmonellosis among hospital employees (Opal et al). 1989;17:141-7

Funeral homes; see Mortuary practice**G****Gloves, surgical**

- Permeability of latex and vinyl gloves to water and blood (DeGroot-Kosolcharoen and Jones). 1989;17:196-201

Guest editorials

- Guest editorials. 1989;17:49-68, 119-20, 193-5, 231-43

H**Handwashing**

- Handwashing practices in an intensive care unit: the effects of an educational program and its relationship to infection rates (Conly et al). 1989;17:330-9

- Influence of two handwashing frequencies on reduction in colonizing flora with three handwashing products used by health care personnel (Larson et al). 1989;17:83-8

Hemorrhage

- Follow-up and education of employees exposed to a patient with HIV antibodies and massive bleeding (Gerner et al). 1989;17:349-52 (Brief report)

Hepatitis B

- Clinical experience with hepatitis B vaccines (West). 1989;17:172-80 (Symposium)

- Hepatitis B: historical aspects (Krugman). 1989;17:165-7 (Symposium)

- Hepatitis B vaccination implementation strategies (Hedrick). 1989;17:190-2 (Symposium)
